Building & Infrastructure	196	489	**462**	**2.5**	231	70	23
Advisory	97	66	181	0.7	49	21	5
SP2M Ad Hoc Program	2,095	3,250	**296**	1.6	257	23	26
Group (incl. B&C)	**8,398**	**12,292**	**282**	**1.5**	**4,175**	**1,614**	**418**

Red: DSO above the group average of 282 days, or AR above twice annual revenue. Invoices per month is the Jan–Oct 2026 average.

Seven moves, same headcount

1. **Mining**
   Ikram becomes dedicated PA; invoicing leaves Saba Loubiri

2. **Energy**
   Khadija Moulaoui as SPA, Saba Loubiri as PA; Oumaima keeps JET only

3. **JET**
   Amine takes the FBP role from Youssef, alongside B&I

4. **Advisory**
   First FBP (Rabab) and SPA (Khadija); Malak Reconciliation Champion

5. **SP2M**
   Khadija Moulaoui formalised as SPA and PA

6. **AM**
   Karim Nseri joins as fourth PA; Hajar stays AR Champion

7. **B&I**
   Ikram sole PA and Reconciliation Champion; Mehdi Baabdellah leaves the list

People on the map: 20 before, 20 after. Youssef and Mehdi Baabdellah leave the BU roles; Karim Nseri and Khadija Moulaoui join.

Fertilizers & Chemicals

9% of group revenue · 26% of AR · 16% of invoices

Rabab	Energy	**Energy, ADS**	597	**694**	500	**566**
Amine	B&I	**JET, B&I**	196	**336**	489	**531**
Youssef	JET	**none**	140	**0**	42	**0**
Senior Project Accountants						
Khadija Moulaoui	none	**Energy, ADS, SP2M**	0	**2,789**	0	**3,816**
Jihane Maddi	Fertilizers, Mining	Fertilizers, Mining	1,371	1,371	3,780	3,780
Imane Naoui	Water	Water	2,400	2,400	3,310	3,310

Amounts in MMAD, summed over the BUs each person covers. Amber marks a changed portfolio.

Project Accountant invoice volume by assigned BU

AM PAs
Abdelali, Aboubaker, Nouaman and Karim Nseri all show the full AM volume (2,105). The real split inside AM is the lever: Abdelali issued 1,547 of them himself.

Saba Loubiri
Moves from Fertilizers + Mining (843 invoices) to Fertilizers + Energy (872). Volume does not fall.

Ikram
Takes Mining next to B&I: 414 invoices, from 231.

Khadija Moulaoui
Now visible as PA for SP2M (257) and SPA for three BUs.

Recommendation: a Reconciliation Champion per BU

Today only AM has one (Hajar). The proposal adds two (B&I, ADS). The three BUs that hold 80% of group AR, Water, SP2M and Fertilizers, have none. Draw the champion from the SPA where one exists, so invoicing and reconciliation are not the same hands.

Business Unit	AR Oct-26 MMAD	DSO days	Champion proposed	Basis
Water & Environment	3,310	**329**	**Imane Naoui**	SPA, separate from the two PAs
SP2M Ad Hoc Program	3,250	**296**	**Khadija Moulaoui**	SPA; needs a second PA so she stops invoicing
Fertilizers & Chemicals	3,220	**377**	**Jihane Maddi**	SPA; also covers Mining as one cluster
Asset Management	848	127	**Hajar**	Already in place; proposed as group coordinator
Global Mining	560	256	**Jihane Maddi**	Same cluster as Fertilizers
Energy	500	190	**Khadija Moulaoui**	New SPA role in the proposal
Building & Infrastructure	489	**462**	**Ikram**	As proposed; PA and champion in one at this size
Advisory	66	181	**Malak**	As proposed
JESA Technologies	42	94	**Oumaima**	PA; lowest AR, no separate role needed

Green = new champion. Role: owns customer reconciliation, unbilled and disputed follow-up, the BU DSO target, and a weekly AR review chaired by Hajar at group level.

Recommendation: four adjustments before go-live

1 Give SP2M a second pair of hands

Mehdi Baabdellah leaves the B&I list in the proposal. Redeploy him as PA for SP2M (257 invoices, 3,250 MMAD AR) so Khadija Moulaoui holds the SPA and champion role only. Same headcount, one less single point of failure.

2 Split the AM portfolio explicitly

AM issues 210 invoices a month and Abdelali 155 of them. Allocate clients or contracts to the four PAs with a target of about 55 a month each, and track it in the invoice register.

3 Keep Youssef on the map

JET moves to Amine and Youssef drops out of every BU. Either name his new scope, or assign him as AR & Reconciliation support for the Fertilizers and Mining cluster, the heaviest AR with the longest DSO after B&I.

4 Give each FBP a DSO target

B&I (462 days), Fertilizers (377) and Water (329) sit well above the group average of 282. The proposal moves names; it should also set the number each FBP and champion is measured on.

Where the proposed structure is still stretched

Khadija Moulaoui SPA for Energy, Advisory and SP2M (3,816 MMAD of AR) and sole PA for SP2M. Control and execution sit with one person on the largest program.

Hind Erramli Fertilizers plus Mining is 3,780 MMAD of AR, 31% of the group, with Fertilizers at 377 days DSO. Unchanged, and should be said so.

Abdelali 1,547 invoices in ten months, 37% of the group. Karim Nseri helps only if the AM portfolio is actually split four ways.

Saba Loubiri Handing Mining to Ikram and taking Energy leaves her volume flat at about 870 invoices.

Rabab Advisory is small (97 MMAD) but has never had an FBP, so the first months are clean-up rather than run-rate.

Decisions requested

- Approve the seven moves and the effective date
- Confirm whether SP2M keeps one person as both SPA and PA, or gets a second PA
- Agree the AM invoicing split across the four Project Accountants
- Endorse an AR & Reconciliation Champion per BU and the DSO targets they carry
